

# Israeli-Palestinian Conflict

## Answering your Question

You identified a topic regarding this conflict that you did not understand very well, you asked a specific question and then you answered it. The next step is to share both your question and the answer you found with the class so that we may all gain a better understanding of this conflict.

Your presentation must be clear, well-explained and you may not have a written text from which to read. You may, however, have a list of words or topics as well as a PowerPoint as a reference.

### **Things to include in the PowerPoint**

- The question
- Discussion topics (no written paragraphs)
- Reference list
